

Cabrillo College FOUNDATION

2 0 2 2 A N N U A L R E P O R T

Tom Sourisseau Allied Health Building named in memory of the late Cabrillo faculty member.

Tom passed away in late 2021, leaving the bulk of his estate to the Cabrillo College Foundation, creating legacy gifts that will benefit biology students and also faculty grants to improve the classroom experience. Tom was a dedicated instructor of anatomy who taught many of the students who went on to become healthcare workers in Santa Cruz County. A dedication for the newly named building will be held in December in honor of Tom (read more on page 14).

EXECUTIVE MESSAGE

Our community supports students who want to pursue higher education at every point along their journey.

From middle school programs that encourage a college path, to scholarships, emergency grants and programs that help students get the most of their education, the foundation disbursed \$2,208,184 to the college for students to meet their educational goals.

I'm grateful to the foundation and those who provide support for putting education first and recognizing that the people in our community all benefit when we provide access to high quality educational resources.

— Matt Wetstein
Cabrillo College President

I'm passionate about keeping the vital resource of education available to everyone in our community. Everyone deserves the opportunity that education provides and Cabrillo College does an excellent job of meeting students' needs wherever they are in life.

— Patty Quillin
Cabrillo College Foundation President

Over my 25 year tenure at the foundation, I've seen students start in our CAP program in middle school who are now thriving professionals in our community. That's what it's all about and I'm grateful to everyone who helps make it happen.

— Eileen Hill
Cabrillo College Foundation Executive Director

Students are at the heart of everything we do.

CAP: FROM MIDDLE SCHOOL TO CABRILLO

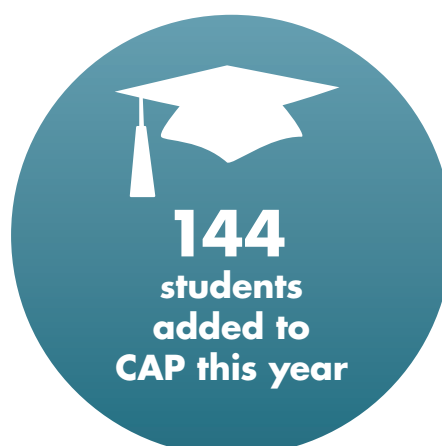

When a young person gets the opportunity to go to Cabrillo during their formative years, college is no longer an abstract idea that seems foreign and out of reach; now it's a part of their experience — a place with happy memories.

Our Cabrillo Advancement Program (CAP) has welcomed young students every year for “Summer Institutes” that are a hallmark of the program, introducing students to a wide range of career options and educational opportunities.

This summer we were able to combine the CAP program with the very successful Baskin Girls in Engineering @ Cabrillo College Camp, funded by the Peggy and Jack Baskin Foundation, inviting 30 young women from the CAP program to explore the world of engineering with hands-on experiments and all the fun and camaraderie of a summer camp.

Past attendees of the camp are now enrolled in our engineering program, so we know this early exposure to the limitless possibilities of a career in engineering can help young women see themselves in this rewarding and meaningful career.

A WARM WELCOME TO THOSE NEW TO COLLEGE

Cabrillo is fortunate to have several scholarship programs that recognize students coming from diverse backgrounds for whom attaining a higher education comes with additional barriers.

AMERICAN DREAM SCHOLARSHIP

The Ow Family continues to welcome our local high school students with scholarships to start at Cabrillo

First of all, I am really happy and grateful to receive the American Dream Scholarship. My name is Melissa Facundo-Rocha and I am about to turn 18 years old within a week. I am proudly Mexican. I am really excited to start this new chapter of my life. With this scholarship and with Cabrillo, I'll be successful. And again, thank you so much, I really appreciate your help.

BRIAN AND PATTI HERMAN SECOND YEAR SCHOLARSHIP

The Hermans add a second year to the American Dream Scholarship recipients to help see students through

This scholarship will help me keep going on my motivated and determined path. I look forward to graduating next year in the spring with a Spanish associate degree, a health and science degree, and a couple in the business field which is my primary focus. I'm also looking forward to transferring to a four-year university like CSUMB to further my education. There, I plan to major in marketing and information systems. This scholarship will help me do just that. It will allow me to continue my path and help me along the way.

COLLIGAN FAMILY SCHOLARSHIP

The Colligans offer support to those first in their family to attend college

Thank you very much for the help you have given. Students all around the country are grateful to those who want to help the future generations of workers, doctors, and more, and I personally want to thank you for helping me with this scholarship. I am a first generation college student at Cabrillo College. Life has become increasingly more expensive. Even with financial hardships, I hope to be able to study at Cabrillo to complete my general education in order to move to a university to get even more education.

I've loved teaching ever since I was a child, searching for any chance to share knowledge. When I was seven, I remember setting up a "classroom" on my baby sister's blanket and teaching her things I thought infants ought to know (like fractions or world history).

I had no idea how much and how quickly I would fall in love with both the Early Childhood Education department and the field. Getting the chance to work with the Children's Center, both as office support and as a student teacher, has been one of the most fulfilling experiences of my life.

This scholarship will go a long way in my housing and commute expenses, and will allow me to take on fewer jobs so that I can really focus on my classes and my work with the Children's Center. I cannot express just how grateful I am for the chance to really be the best teacher I can be. Thank you.

India Gleason
Margo Trombetta Memorial Endowed Scholarship

I am appreciative to be a recipient of the Kathryn Cowan Shephard Endowed Scholarship. I am thankful for the generous contribution, and for endorsing Cabrillo students who like me have great aspirations. This support came at a favorable time as I will be transferring this fall to Cal Poly. It will help me pursue my education and dream of becoming a biomedical engineer.

I grew up as a migrant student and have moved houses every six months. This is due to the homes where I live only allowing us to live in Watsonville half the year. During this time, we would go to Southern California or Mexico in search of work. This caused me to have an inconsistent education, but it made me persistent as I knew the importance of an education.

With your generous support I will be able to better support myself when I move down to San Luis Obispo and pursue my dream. I am grateful. Thank you.

Jose Ramirez Jimenez
Kathryn Cowan Shephard Endowed Scholarship

1,558 students received awards

INDIVIDUAL IMPACT

Coming from a low income background, as well as growing up in an environment surrounded by some of the hardest working people I know, grit and optimism are characteristics that have been ingrained into my mentality. I am one to refuse the notion of simply giving up. Heading into college, however, has challenged this thought process, as the price to attend my college of choice has proven more grand than I previously thought.

Despite this, I have attempted to work as hard as I could and have applied to as much financial aid as I could. Now that I am in the endgame of my high school journey, I am proud to see that my hard work was well worth the effort. With that being said, I simply want to say thank you to the donors from the Alpert Sharing Fund Scholarship, for helping alleviate potential future adversities that I may face as I go through my journey in college.

Angel Soto

Alpert Sharing Fund Scholarship

All my life I have worried about money. I didn't know how I would pay for my higher education or if I would be able to attend a university. The STEM center at Cabrillo gave me hope. I was all of a sudden surrounded by first generation students who looked like me and understood the anxiety.

When I was applying for colleges, it was a hectic time. I was rereading my essays and getting friends to read it. In the end when it came time to submit I was surrounded by those same friends who believe in me. I was at a Starbucks working on engineering homework when I got an email from Cal Poly, SLO that I was accepted. I was again surrounded by friends. I am excited by what the future is going to bring and how I can give back to my community.

Carolina Mejia

Davidson Women in Engineering Scholarship

\$1,343,451 scholarship dollars awarded

SCHOLARSHIPS: A GIFT COMES FULL CIRCLE

The Cabrillo College Foundation awards over 1,000 scholarships every year. Our generous community gives to scholarships for many reasons, but each one supports students on their way to finding their career and passion. We recently heard from a recipient who 20 years later has fulfilled his vision to help cancer patients.

In 1982 Pat Blanchette, a now retired Cabrillo College Dental Hygiene staff member, established the Beth Blanchette Memorial Scholarship in honor of her daughter Beth, who died at the age of 22 years old of Hodgkin's disease. Beth had requested that a scholarship be established in her name for Cabrillo College students transferring to a four-year institution, majoring in life science.

Pat was touched to receive this note from scholarship recipient Blake Aftab:

"20 years ago, I was very fortunate and privileged to have received the Beth Blanchette Memorial Scholarship while a student at Cabrillo. I remember how much it meant to me, both in sentiment and value. I told Pat back then that my plans were to focus my career on developing drugs for cancer. After moving on to UCSB and later completing my PhD at Johns Hopkins, I kept Pat updated on these milestones, including sending her a copy of my thesis, along with a dedication to her and Beth.

Almost 20 years after receiving the scholarship, I became the Chief Scientific Officer of a well funded biotech company leading therapeutic development and supporting the clinical evaluation of a first-in-class cell therapy for patients with non-Hodgkins lymphoma. I believe this is quite close to a full circle for her investment in my story... Her contributions to support students like me are immense."

We are grateful to all of the people who support our students. As we can see, it pays off!

PROGRAMS THAT HELP STUDENTS BE THEIR BEST

Digital Book Lending

A foundation-funded grant allowed the library to provide “controlled digital lending” to offer digital (PDF) versions of our print textbooks. Students can check out and read these required textbooks, for free, for 4-hours at a time, and they can do this fully online without coming to campus — a real game changer in our postpandemic world.

Guardian Scholars

Students who have spent time in the foster youth system have a place to be on campus with support systems and access to scholarships and guidance tailored to their needs.

Veterans Information Center

The Veterans Information Center (VIC) at Cabrillo is operated by veterans for veterans. They provide resources and information for those who have served as well as their dependents. All military service veterans are welcome. The VIC provides academic counseling, assistance with GI Benefits and priority registration, educational coaching, and assistance with financial aid — all in a friendly and welcoming environment.

Umoja

Umoja is a new campus program aimed to increase retention and completion rates for African American students. Umoja promotes student success and improved lifetime outcomes for all students through a curriculum that is responsive to the legacy of the African and African American Diasporas.

"I am beyond lucky to be part of a school that appreciates veterans as much as Cabrillo does. The Veterans Information Center (VIC) has been my home away from home."

Tutoring

Cabrillo offers free peer tutoring to any student who needs help. Gifts to the program provide funding to hire and train student tutors who further their own understanding of the subject by explaining it to others.

I'm a single mom to a son with special needs. Everything revolves around my son and my studies. It's been very hard — there have been times where we have almost been homeless. Our level of need is such that sometimes my son will eat and I won't. I believe that having a little support can go a long, long way.

It's such a privilege to be a recipient of this gift.

Nia

Cabrillo Nursing Student
2022 WES recipient

I'm so happy to be co-chairing WES this year. Helping students overcome a financial burden means a lot to me and everyone on the WES committee. It's such an honor to provide support to people in their moment of need, helping them continue their education and follow their dreams.

Freny Cooper
2022 WES Co-Chair

Women's Educational Success (WES) is an emergency grant program that provides funding up to \$1,000 in a matter of days. Getting a financial concern handled quickly keeps students on track and able to focus on their studies.

Nursing student Nia recently received a WES grant to replace a broken laptop. She was thrilled to start her classes knowing that not only would she have the technology she needed, but she would be able to help her classmates, too.

WES is celebrating its 25th year and awarding \$110,000 to students. The community volunteers who fundraise for the program are the heart of the program. With their help the endowment continues to grow and WES is able to assist more students year after year.

The Sharanam Foundation and the Wedeen Hammer Locatelli group are matching all gifts of \$250 or more up to \$20,000 this year.

Committee Members from front to back: Angie McClellan, Rachael Spencer, Deborah Bronstein, Peggy Flynn, Corrine Flanagan, Rose Odland, Pam Goodman, Cynthia FitzGerald, Lynette Cleland, Karen Semingson, Kate Terrell, Freny Cooper (Co-Chair), Cynthia Druley, Chris Maffia, Martina O'Sullivan, Mary Culley (Co-Chair) **Not pictured:** Shannon Brady, Cathy Conway, Kathryn Cowan, Amy Ivey, Janet Krassow, Carolyn Parham, Gail Pellerin, Bunny Tavares, Kristin Wilson

CIRCLE OF SUPPORT: PRESIDENT'S CIRCLE

Joining the President's Circle is one of the best ways to connect to the college and support its students! The President's Circle Committee raised over a half a million dollars last year, which translates into wins for students through scholarships and enhanced learning opportunities. It's a great group of community members who share my passion for quality education available to all.

Linda Burroughs
President's Circle Committee Co-Chair

The President's Circle brings together a community of caring supporters who value Cabrillo's role in providing a high-quality education available to all.

Members annually give \$1,000 or more to support the foundation's endeavor to assist students at every point of their educational journey. The President's Circle Committee makes it all possible!

**Deceased donors are italicized*

Tom taught at Cabrillo for over 30 years. He was a beloved instructor and taught anatomy and physiology to many current healthcare workers in this community.

He was a strong presence at Cabrillo, and served as Faculty Senate president, chair of the Sabbatical Leave Review Board, and was the Biology department chair for several years. He was usually enrolled in classes at Cabrillo—Spanish, dance, chocolate making, and wine classes through Culinary Arts.

Tom graduated from UC Berkeley in 1968 and did a 2.5 year stint with the Peace Corp in West Africa. He loved to travel and he spoke seven languages. He was a lifeguard and trained lifeguards for many years. He often rode his bike to work, loved swimming in the ocean, and was an avid runner.

Despite having two strokes that made speech difficult, he remained engaged with the Cabrillo community. He participated in foundation events and was active in the retiree community. Up until the pandemic he swam at Cabrillo several times a week and he enjoyed being a student at the Stroke and Disability Learning Center.

Tom left most of his estate to the Cabrillo College Foundation to benefit Biology students and our Faculty and Staff Grant program that funds grants to improve student success. In recognition of his incredible contributions to the college, the Allied Health Building will be named in his honor. A celebration will be held in December and all are welcome to attend.

Tom was a renaissance man with an indomitable spirit. He will be missed.

LEGACY GIVING: ENSURING FUTURE SUCCESS

Cabrillo Foundation Board Member Karen Cogswell and her husband John Maenchen have restored their Aptos home with care and attention to detail. It is a reflection of their love of art, good food, and each other. They met at UCSC where John was Karen's Resident Assistant and a great friendship led to marriage 39 years later.

Karen serves as a foundation Board Member, because "Cabrillo is a gateway to a better, more fulfilling future for all, no matter what their circumstances." Building on that belief, the couple let the foundation know that they intend to give their home to Cabrillo in their estate plans. "It's a lovely thing," John says and Karen agrees, "It will have a huge impact and feels so good to be able to do."
